

## ECHO Cod.1671

A new interpretation of the twill weave structure, developed at an enlarged scale to emphasize color and form. ECHO is an upholstery fabric defined by a pronounced diagonal rhythm, where the logic of the weave remains visible and intentionally expanded. The structure reads as tactile and architectural, with texture taking priority over pattern.

The fiber blend combines elements chosen for balance and performance. Cotton and linen lend freshness and subtle texture, wool adds warmth and body, while viscose brings softness and light, giving depth and movement to the color. Together, they create a fabric with a soft, substantial hand, suited to upholstered forms that benefit from structure without rigidity.

Mélanged yarns and layered tones interact with the enlarged twill construction, allowing color to appear nuanced and continuous rather than contrasted. Designed for sofas, seating, armchairs, cushions, and interior elements, ECHO offers a textile language grounded in weave, scale, and material presence.

Composition: 27%VI 26%PL 17%CO 17%LI 13%WO

Width: 140 cm / 55" Inch

Weight gr/ml: 790

Repeat (Vertical): /

Repeat (Horizontal): /

Martindale Rubs: 30.000

Pilling: Min.1 ● ● ● ● ○ Max.5

Light Fastness: Min.1 ● ● ● ● ● ○ ○ ○ Max.8

Care:     

Use:  Heavy Use

Country of Origin: Made in Italy

Cutting for Approval: Available
