

LUMA Cod.3400

Defined by its presence and materiality, LUMA is a wide-width curtain fabric woven on a jacquard loom.

Diagonal, undulating stripes form a subtle rhythm across the fabric, carried by a honeycomb weave that catches the light and lends depth.

The ground weave reveals the character of hemp and wool yarns, whose natural fibers lend nuance and a quiet tactility.

Hemp provides strength, breathability, and a grounded, sustainable profile, while wool contributes warmth, softness, and a gentle fullness to the hand.

Together, they create a textile that feels substantial yet serene and fluid. Offered in four light, natural tonalities, LUMA brings texture, dimension, and an authentic connection to the natural world.

Composition: 33%CA(True Hemp) 30% WO 17% PC 9% PL 6% LI 5% LY
