

NARA Cod.3426

Revealing the contrast of elongated fil coupé threads across a softly irregular linen ground, NARA is a wide-width jacquard curtain fabric that combines the character of woven textures with a handwoven-inspired expression. The contrasting tones of the yarns establish a gentle rhythm, echoing Ikat-inspired and hand-stitched textile traditions.

Its sablé ground lends the fabric tactile richness and a relaxed, soft hand, and its jacquard structure evokes a timeless and soulful sensibility that feels grounded in nature. Presented in five tonal variants, NARA carries the spirit of artisanal textile heritage, reinterpreted with contemporary ease. Its name recalls the serene atmosphere of the ancient city of Nara, known for its cultural craftsmanship and its harmony with nature.
